THE CLASSICS DEPT.: ...HELLO! READY FOR ANOTHER IDIOTIC SESSION OF MAD READING?... GOOD!...TODAY, IN THE CONTINUED INTEREST OF DESTROYING THE CLASSICS, WE TURN TO A STORY LONG DEAR TO OUR HEARTS, AND WE PRESENT TO YOU THE MAD VERSION OF THAT QUIANT AND DELIGHTFUL CLASSIC...

# ALICE IN WONDERLAND!

Alice was beginning to get very tired of sitting by her sister and having nothing to do. She had peeped into the book her sister was reading but it had no pictures...

...Suddenly a White Rabbit ran by. There was nothing so remarkable in that, but, when the Rabbit actually took a watch out of its waistcoat pocket, Alice started to her feet...

Burning with curiosity, she ran across the field just in time to see it pop down a rabbit-hole. Alice went after it...

The rabbit-hole went straight on like a tunnel and then dipped suddenly down and Alice found herself falling...

...down what seemed to be a very deep well. First she tried to look down but it was too dark to see!

Then she noticed the sides were filled with cupboards and book-shelves.

Down, down, down... "I wonder how many miles I've fallen!" she said... when suddenly...

...thump! thump! Down she came upon a heap of sticks and the fall was over.

what a mess!

...Well... that's the way it goes!... And so, on to our next adventure... "Through the Looking Glass"! Alice had been sitting curled up in a corner of the great armchair...

"How nice it would be to get through into Looking Glass House," said Alice... "I'll pretend the glass has got all soft like gauze." She was up on the chimney-piece while she said this...

...Though she hardly knew how she had got there, the glass was beginning to melt away like a bright silvery mist! In another moment Alice was through the glass...

By George! That "pretending" business sure can get a body into trouble!... The whole gol-durned mirror... smashed to smithereens! Alice began looking about...

...and there was the Rabbit hurrying along. Alice fancied she heard him say something like "Updok!"

At the end of the hall appeared a doorway through which the Rabbit flew with Alice right after.

However, the door being fifteen inches high, and the wall being harder than her head, Alice was unable to follow!

Suddenly, Alice came upon a table of solid glass with a tiny golden key on it and beside the key, a tiny bottle inscribed with the words "DRINK ME."

Since it would do her no good to open the tiny door, she turned to the bottle and finished it off. "How curious! I must be shutting up like a telescope!" said Alice.

And now her size was OK... the door was OK... She went to get the key... but Alice was too small!

So she grew big again from a cake that said "EAT ME"... got key OK... went to door... but Alice was too big!

...Drank more "DRINK ME" bottle... size OK... door OK... went to get key... but Alice was too small!

...ate cake... key OK... table OK... size OK... but the door was too big!

...more bottle... key OK... size OK... door OK... but the room was too small!

...more cake... door OK... size OK... table OK... but the key was too big.

...bottle... key OK... door OK... size OK... table OK... but the picture was too small!

This whole business was getting ridiculous so Alice called the 'super' who let her out with the pass key! Outside were a March Hare, a Mad Hatter and a Doormouse.

"No room!" they cried at Alice who said, "Gracious, a talking March Hare!" However, the March Hare wasn't really talking. It was the Doormouse (who was a ventriloquist.)\*

\*And don't tell us you haven't heard **that** one before!

"Very well," said the Hatter springing from his seat. "You may join our tea-party! Come, let's put on our war-paint!"

"But what has war-paint to do with a Mad Tea Party?" said Alice. "**Mad** Tea Party? Who said **Mad** Tea Party..."

"...This is going to be a **Boston** Tea Party," said the Hatter. But Alice had been distracted by the White Rabbit..."

This time she was determined to catch him...to learn what that strange sound, "Updok" meant!..."Updok... What's Updok... **What's up-doc?**... Now she knew!

An instant later, bravery was fear... hunter turned hunted...for Alice suddenly realized from movies she'd seen...**this Rabbit was very dangerous to chase!**

In any case, a cry of "The trial's beginning!" was heard in the distance. "Come on!" cried the Rabbit. Ahead of them, the King and Queen were holding court.

It seems that the Knave of Hearts stole some tarts. And so...don't ask us why, but we now come to part where White Rabbit reads most classic poem of book called "Jabberwocky!"

### JABBERWOCKY.

'Twas brillig, and the slithy toves  
Did gyre and gimble in the wabe:  
All mimsy were the borogoves,  
And the mome raths outgrabe.

"Beware the Jabberwock, my son!  
The jaws that bite, the claws that catch!  
Beware the Jubjub bird, and shun  
The frumious Bandersnatch!"

He took his vorpal sword in hand:  
Long time the manxome foe he sought —

So rested he by the Tumtum tree,  
And stood awhile in thought.

And, as in uffish thought he stood,  
The Jabberwock, with eyes of flame,  
Came whiffling through the tulgey wood,  
And burbled as it came!

One, two! One, two! And through and through  
The vorpal blade went snicker-snack!  
He left it dead, and with its head  
He went galumphing back.

"That's a poem?" said Alice!

"That by you is a classic poem supposed to live through ages?"

"Is it educational? Does it teach a moral? Will it sell?" said Alice!

"The Knave is guilty!" says the Queen. "Off with his head!" Alice flips! But the Knave says, "It's O.K.! Since I'm a playing card, I've got a head to spare!"

And that's why Alice flips...the card deck, that is, 'cause all the while she's playing solitaire...and cheating. "Off with her head!" the Queen shouts.

"Who cares for you?" says Alice. "You're nothing but a pack of cards!" At this, the whole pack rose up into the air and came flying down on her!

She tried to beat them off and found herself lying on the bank with her sister, who was gently brushing away some dead leaves from her face.

"Wake up, Alice dear!" said her sister. "You've been dreaming!" "What?" said Alice, "The old 'dream' plot?"

"Whew! That old routine where an adventure turns out to be a dream, is the corniest plot in history!"

And so she told her sister of her curious dream as well as she could remember...

...And when she had finished, her sister said, "It certainly was a curious dream" and so took Alice off to see a psycho-analyst.

Here again, we devote our text page to a serious discussion of the state of the world . . . to a **sounding** out of political, social, and economic affairs. In this issue, we would like to discuss how statements and opinions of our hemisphere might sound to the ears of the other side of the world. How do our views sound in the far-east, for instance, and how do their views sound to us. For, although an opinion may sound one way to you, the same opinion may sound completely different in a distant land because of the complete difference of circumstances. And so, here is our article . . .

This image shows a page of handwritten musical notation, likely a manuscript for a piano piece. The notation is arranged in several systems, each consisting of a treble staff and a bass staff. The music is written in a historical style, with various note values, rests, and dynamic markings such as 'cresc.' (crescendo) and 'allora' (then). The paper is aged and yellowed, and the handwriting is in dark ink. The piece appears to be in a minor key, as indicated by the key signature. The notation is dense and covers most of the page, with some marginalia and corrections visible.

# MAD MUMBLINGS

Dear Editors,

At our humble little base here in North Africa, Everyone enjoys MAD tremendously. Everyone, that is, except two guys I know of, but they're □'s anyway. MAD is the furshlugginest book in circulation.—Pete McDole, U.S.N.—Africa

Isn't it curious that when one cleverly re-assembles the three letters, "M A D", one gets "cow-kettle-soup"?—Anonymous

In "Gasoline Valley" (MAD #15), you show Skizziks saying, "Gosh! ... spelled backwards is shog ... I've got news! Gosh spelled backwards is HSOG, not SHOG! Has Elder been eating blintzes again?"—Roland Juge—New Orleans, La.

In Captain Tvideo, did those farshimmelt idiots ever catch that rocket model?—Yale Greenspoon—Bayonne, N. J.

Lookout! Here they come again!—ed.

I sent my little brother to the store this morning to get a copy of MAD. Instead, he got MUD/¼, an imitation. I pulled out my .45 caliber sword and shot him 16 times. Melvin fell to the floor ... dead. I quick called the cops and they arrested him on charges of buying an imitation and catching 16 bullets in his left head.—Anonymous

Just finished reading my first MAD comic today. Positively the most timely, up to date, modern humor I have ever read.—Genghis Khan—(No address)

You have all the boys at our high-school so interested in MAD comics, that they don't pay any attention to the girls anymore. I know, because my beau was the class wolf last year. Now he's more like a translator. He comes in and I say, "Boy, am I ever tired," and do you know what he says? "Look doll, you mean 'Bwah!'"—a girl in Oswego

I think you guys are the most. All of us kats around here have had our minds brain-washed with your trash.—Dick Regentz—Pekin, Ill.

I just read in MAD MUMBLINGS what a frustrated mother said about your sweet magazine. That gripes me, calling your great literary accomplishment "imbecilic, moronic rot." If you have a well-balanced, stable mind, this kind of humor should

appeal to you. As for me, I ... unk, doodle, ugh; look mommy, a cat! ... cat ... CAT? ... I'M A LITTLE SPARROW! ... tweet tweet! —Virginia Barron—Hialeah, Fla.

I think that MAD's are the best and the most entertaining comic-books out. More sensible people should read them. I collect them all. I also collect dead bodies.—Gary Barler—N. Tonowanda, N. Y.

I want to congratulate you for your slow but sure comeback in a field of rotten corn.—Pat McKelvey—Little Rock, Ark.

I have been a faithful follower of E.C. for many years. Just thought I'd drop you a line to tell you that I think of the last three issues of MAD. They're terrible and stupid and personally, I think you guys are going broke.—Bill Mattson—(no address)

I am a faithful reader of MAD, but I soon won't be if you don't start cleaning up your comic. If you keep having dirty pictures and stories, my whole gang and I will stop buying MAD.—Coraline Haas—San Jose, Cal.

Today I brought home another issue of MAD. I think that if you keep up that kind of work, and leave off some of the dirt and vulgarity that I am sorry to say I found in one story of yours, (only one) you should really have a top-notch mag.—Anonymous

What you publish is cheap, miserable trash! Fortunately, I also am cheap miserable trash!—Anonymous

Your magazine is not fit for human consumption. But I eat it anyway.—Mike Melner—Reno, Nev.

One thing that steams me are those full pages devoted to "Discussion of Affairs in Greece"... Nothing but junk with a few POTRZEBIES thrown in!—Carol Craven—Ft. Lauderdale, Fla.

I found your article on Greece highly informative, sympathetic, and mindful of the vicissitudes of human life. Felicitations!—Anonymous

THE RIGHT  
STOVE,  
BOYS!

...WELL...  
SO LONG  
AGAIN,  
FELLOWS!

GOSH! THEY'VE  
BEEN GONE  
QUITE A  
WHILE NOW!

...I WON-  
DER IF  
THEY'RE  
OUTSIDE  
YET?

**LISTEN!  
SHOTS!**

DO YOU THINK  
THAT MEANS  
THEY DIDN'T  
MAKE IT?

...RIGHT!... WE  
DIDN'T MAKE  
IT!

THEY  
WERE

# CAR BURNING OIL?

## Engineer's Discovery Stops it Quick

### Without A Cent For Mechanical Repairs!

If your car is using too much oil—if it is sluggish, hard to start, slow on pickup, lacks pep and power—you are paying good money for oil that's burning up in your engine instead of providing lubrication. Why? Because your engine is leaking. Friction has worn a gap between pistons and cylinder wall. Oil is pumping up into the combustion chamber, fouling your motor with carbon. Gas is exploding down through this gap, going to waste.

#### SAVE \$50 TO \$150 REPAIR BILL

Before you spend \$50.00 to \$150.00 for an engine overhaul, read how you can fix that leaky engine yourself, in just a few minutes, without buying a single new part, without even taking your engine down. It's almost as easy as squeezing toothpaste or shaving cream out of a tube, thanks to the discovery of a new miracle substance called Power Seal. This revolutionary, new compound combines

the lubricating qualities of Moly, the "greasy" wonder metal, with the leak-sealing properties of Vermiculite, the mineral product whose particles expand under heat. (Up to 30 times original size.)

Just squeeze Power-Seal out of the tube into your motor's cylinders through the spark plug openings. It will spread over pistons, piston rings and cylinder walls as your engine runs and it will PLATE every surface with a smooth, shiny, metallic film that won't come off! No amount of pressure can scrape it off. No amount of heat can break it down. It fills the cracks, scratches and scorings caused by engine wear. It closes the gap between worn piston rings and cylinders with an automatic self-expanding seal that stops oil pumping, stops gas blow-by and restores compression. No more piston slapping; no more engine knocks. You get more power, speed, mileage.

This genuine plating is self-lubricating too for Moly, the greasy metal lubricant, reduces friction as nothing else can! It is the only lubricant indestructible enough to be used in U. S. atomic energy plants and jet engines. It never drains down, never leaves your engine dry. Even after your car has been standing for weeks, even in coldest weather, you can start it in a flash, because the lubrication is in the metal itself. That's why you'll need amazingly little oil; you'll get hundreds, even thousands of more miles per quart.

#### TRY IT FREE!

You don't risk a penny. Prove to yourself that Power-Seal will make your car run like new. Put it in your engine on 30 days' Free Trial. If you are not getting better performance out of your car than you thought possible—if you have not stopped oil burning and have not increased gas mileage—return the empty tube and get your money back in full. Power-Seal is absolutely harmless; it cannot hurt the finest car in any way. It can only preserve and protect your motor.

#### POWER SEAL MAKES WORN OUT TAXI ENGINE RUN LIKE NEW

Here are the Test Engineer's notarized figures showing the sensational increase in compression obtained in a 1950 De Soto taxi that had run for 93,086 miles. Just one POWER SEAL injection increased pep and power, reduced gas consumption, cut oil burning nearly 50%.

	Cyl. 1	Cyl. 2	Cyl. 3	Cyl. 4	Cyl. 5	Cyl. 6
BEFORE	90 lbs.	90 lbs.	105 lbs.	90 lbs.	80 lbs.	100 lbs.
AFTER	115 lbs.	115 lbs.	117 lbs.	115 lbs.	115 lbs.	115 lbs.

#### BEST INVESTMENT WE EVER MADE, SAYS DRIVER-OWNER

"We simply inserted the POWER SEAL per instructions and made no other repairs or adjustments. Compression readings were taken before and after and showed a big improvement in both cars. As a result the engine gained a lot more pick-up and power which was especially noticeable on hills. What impressed us most was the sharp reduction in oil consumption. In one cab, we've actually been saving a quart a day and figure we have saved \$11.20 on oil alone since the POWER SEAL was applied a month ago. In the other cab, oil consumption was cut practically in half. We have also been getting better gas mileage. All in all, POWER SEAL turned out to be just about the best investment we ever made. It paid for itself in two weeks and has been saving money for us ever since, to say nothing of postponing the cost of major overhauls that would have run into real money." Town Taxi, Douglaston, N. Y.

#### SEND NO MONEY!

Simply send the coupon and your Power-Seal injection will be sent to you at once C.O.D. plus postage and handling charges. Or, to save the postage and handling charges, simply enclose full payment with the coupon. For 6-cylinder cars order the Regular Size, only \$4.95. For 8-cylinder cars order the Jumbo Size, \$7.95. Power-Seal is now available only by mail from us. Send the coupon at once.

# I WILL TRAIN YOU AT HOME FOR GOOD PAY JOBS IN RADIO-TELEVISION

J. E. SMITH has trained more men for Radio-Television than any other man. OUR 40TH YEAR.

**America's Fast Growing Industry Offers  
You Good Pay—Bright Future—Security**

## I TRAINED THESE MEN

"Started to repair sets six months after enrolling. Earned \$12 to \$15 a week in spare time."—Adam Kramlik, Jr., Sunnyside, Pennsylvania.

"Up to our necks in Radio-Television work. Four other NRI men work here. Am happy with my work."—Glen Peterson, Bradford, Ont., Canada.

"Am doing Radio and Television Servicing full time. Now have my own shop. I owe my success to N.R.I."—Curtis Stath, Ft. Madison, Iowa.

"Am with WCOC. NRI course can't be beat. No trouble passing 1st class Radio-phone license exam."—Jesse W. Parker, Meridian, Mississippi.

"By graduation, had paid for course, car, testing equipment. Can service toughest jobs."—E. J. Streitenberger, New Boston, Ohio.

**AVAILABLE TO  
VETERANS  
UNDER G.I. BILLS**

Training plus opportunity is the PERFECT COMBINATION for job security, good pay, advancement. In good times, the trained man makes the BETTER PAY, GETS PROMOTED. When jobs are scarce, the trained man enjoys GREATER SECURITY. NRI training can help assure you more of the better things of life.

**Start Soon to Make \$10, \$15  
a Week Extra Fixing Sets**

Keep your job while training. I start sending you special booklets that show you how to fix sets the day you enroll. Multitester built with parts I send helps you make \$10, \$15 a week extra fixing sets while training. Many start their own Radio-Television business with spare time earnings.

## My Training Is Up-To-Date

You benefit by my 40 years' experience training men at home. Well illustrated lessons give you basic principles you need. Skillfully developed kits of parts I send (see below) "bring to life" things you learn from lessons.

## You Learn by Practicing with Parts I Send

Nothing takes the place of PRACTICAL EXPERIENCE. That's why NRI training is based on LEARNING BY DOING. You use parts I furnish to build many circuits common to Radio and Television. As part of my Communications Course, you build many things, including low power transmitter shown at left. You put it "on the air," perform procedures required of broadcasting operators. With my Servicing Course you build modern Radio, etc. Use Multitester you build to make money fixing sets. Many students make \$10, \$15 week extra fixing neighbors' sets in spare time while training. Coupon below will bring book showing other equipment you build. It's all yours to keep.
